

## **The People's Declaration to Revoke and Abolish**

***We the people,***

***of the United States of America, come together, as one body and one voice, bearing the ultimate authority and power, vested in us by Constitutional laws, over all Federal and State Governments and their respective Departments and agencies, to protect ourselves, each other, our States, the Constitution and this Nation against abuses of powers, tyranny, absolute despotism, encroachments and subversion of our Constitution by the Executive, majority in the Legislative between 2004 and 2011 and the judiciary branches within the Federal Government of the United States of America. Our founding fathers found it necessary to bind the people and the Constitution together, so that one may protect the other, then both protect the country. Anyone, including law enforcement and military personnel, who interferes, or attempts to interfere, with this declaration and the execution thereof, or harass/harm those who support it, shall be charged with Treason and Obstruction of Justice, as this document and its contents are legal, binding and for the purpose of restoring our fallen Government. The same Constitution that gives the people the ultimate executive authority and power over all conflicting and/or corrupt Governments, extends that authority over the Justice Department and its branches, the Department of Defense and its branches and the Court system, from the lowest to the highest.***

Hereinafter, all references to the Constitution and its laws, will include, but not be limited to, the Federalist Papers, The Bill of Rights and the Declaration of Independence.

We, the legal and sovereign people, have a legal duty that was willed to us to protect and maintain Constitutional laws which protect our rights and liberties and to enforce those laws diligently. Therefore, in accordance with the republic form of Checks and Balances, proceed to honor our duty in the repossession, recovery and balancing of our Governments. Only those among the people, with the abilities to discern between what is just and unjust, have the ultimate reasoning and discernment required to satisfy those laws of abolishment against those that are destructive to our liberties, rights and societies, in accordance with the original Constitutional laws.

Let it be known that, it is a treasonous and seditious act to plot an overthrow of government that governs justly and within Constitutional laws. However, whenever a government is breached by tyranny, absolute despotism and corrupt officials who violate the Constitution and the tranquility, rights, liberties and pursuit of happiness of the people, while committing Federal crimes, it is NOT treasonous nor sedition to remove those in violations from the people's government. It is a duty, per the Constitution, to do so, as the people were given authority to enforce Constitutional laws whenever our governments run afoul of them. Way before the Sedition Act, our founders provided relief for the people oppressed and abused by our governments and, as our last resort and final decision, activate our rights and duties accordingly.

The people rebuke any charges of sedition and treason against us by the Federal Government and declare that any such action against the people of these United States would be a direct abridgement of the Constitution. Our Governments, Federal and States, were not built as a Democracy, but a Republic.

Under a Democracy, the majority's power is absolute and unlimited. Its decisions are not subject to appeal under the legal system, opening the door to unlimited Tyranny-by-Majority, as, the majority rules. Democracy is collective opinions and ideals from the hearts and minds of people. Our founders warned against this type of Government. Our Governing system was wisely built as a Republic, which controls the majority strictly, as well as all others among the people, primarily to protect the individual's God-given, unalienable natural rights and therefore for the protection of the rights of the minority, of all minorities, and the liberties of people in general.

The definition of a Republic is a constitutionally limited government of the representative type, created by a written Constitution--adopted by the people and changeable (from its original meaning) by them only by its amendment--with its powers divided between three separate Branches: Executive, Legislative and Judicial. It is a rule, not by people, but by law. We have democracy in our voting society. But, regardless of its applications and the several factions among the people, democracy must always be tempered by the Republic. Otherwise, tyranny and anarchy enters.

An issue cannot be validated simply by a majority's agreement. It must first be validated by Constitutional law and then processed by majority. Therefore, the Republic tames democracy so that justice prevails. Our Constitution's foundation was laid upon the solid rock of the Republic, for our founders recognized that mankind was flawed and had need of guidance, constraint, discipline and law.

From the Declaration of Independence, *"When in the Course of human events it becomes necessary for one people to dissolve the political bands which have connected them with another and to assume among the powers of the earth, the separate and equal station to which the Laws of Nature and of Nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation. We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are*

*Life, Liberty and the pursuit of Happiness. That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed, That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security."*

This nation was built solely for the purpose of protecting those rights, liberties and securities with free States and free people. The States and the people created the Federal Government and we bear witness to its many abuses. Although no Government can create inherent rights, government has a Constitutional and chartered duty to protect them. James Madison stated: *"States and Federal Governments are mere agents and trustees of the people, constituted with different powers and designed for different purposes."* Whereas, the people and their States can govern and function without a central government in its tyranny, the central, however, cannot function at all without the people. But this Federal Government has been illegally promoted as a hierarchy above the people and States, by those who have also promoted themselves above the Constitution, creating usurpations. Again, James Madison made the following statement: *"The accumulation of all powers, legislative, executive and judiciary, in the same hands, whether of one, a few, or many, and whether hereditary, self-appointed or elected, may justly be pronounced the very definition of tyranny."* Irrefutably, our Executive, Legislative and Judicial branches were in the same hands, which have created tyranny and absolute despotism, violating Separation of Powers and Checks and Balances Laws.

It has long been written in our Constitutional laws that, no person shall rule over another; inasmuch, we are all equal, and fall under the same laws of the land, those who govern and those who are governed, and are subjects of the same consequences. The people do attest that, no one is above the law. But our Federal Government has not been governing. Instead, those in tyranny and absolute despotism are overstepping their legal authorities and limited powers by dictating. This is a violation of our republic, the constitution and the people. Let the world know where we, the American people, do stand in our quest for justice which this mirage of a Government, has repeatedly obstructed. Be it known, that any treaty, or other laws, that are signed and which are contrary to the Constitution, is null and void.

Treaties, which normally take precedence over the constitution, unless Congress or States vote against, are never meant to trump its laws.

In reasoning, the U.S. Constitution, the supreme law of the land, cannot, even by amendments, create an instrument, such as a treaty, that supersede its own laws by mandating that treaties be supreme and illegal. Such treaties cannot encroach on the peoples' liberties, nor misappropriate public funds. It cannot give this nation's classified information to other countries, nor to the United Nations.

The United States of America is a sovereign nation and the people are a sovereign people. Treaties cannot give any type of U.S. controlled regulations, materials or ownership to any country or agent of countries. The United Nations shall not dictate, through any treaty, America's legal, civil, economic, social or cultural societies and resources whatsoever. No one has the legal authority to present, vote on or sign such unconstitutional treaties.

It is unnecessary and foolish for the United States to enter into a treaty of weapons reduction with other countries while mutual enemies build up weapons of mass destruction, rendering the entreated countries less defended against heavier weapons-possessed countries. Our allies should be warned that peace treaties with each other would suffice while our combined defenses should be sufficiently strengthened in restraining danger to our respective countries and the whole world. No country, except those who plot to encroach and attack others, should be asked to disarm themselves, leaving them helpless.

Every non-hostile country has a right to defend itself against hostile enemies by any means necessary to subdue.

A treaty that would commit to any of these would be an abomination, unconscionable and a violation of the Constitution itself, as well as the laws of nature, being that the nature of the human spirit would suffer under such commitment.

Therefore, the United States of America shall never cede its sovereignty, ownership, classified information or defense weapons to any foreign nation or agent of foreign nations, nor its funds for unconscionable projects.

It is of prima facie evidence and a common-knowledge, irrefutable truth that, the Executive, the majority of the 111th Congress and Judiciary branches in our Federal, and some State, Governments, having no restraint with their offenses against the people, the Constitution and this Nation, have created tyranny, absolute despotism and a Totalitarian fascist form of Government, by a peculiar group of power-frenzied people within our Governments, whose ideologies are contrary to our Constitutional principles, values and laws, and have committed other crimes that are repulsive, unconscionable and Anti-American.

Totalitarianism is a dictatorial form of Government which regulates, controls and manipulates every aspect of state, federal and private behavior, by maintaining themselves in political power by ideology and propaganda through the state-controlled mass-media; it is a single party that controls the state and/or Federal Government and the

people, with personality cults, such as narcissism; it takes total control over the economy, regulates and restricts free discussion and criticism. This form demands total control of the Governments, their finances, commerce, healthcare system, Justice Departments, Defense Department, energy systems, utilities, police/law enforcement, court systems, transportation, education, the people, etc...the whole infrastructure within a country.

We have witnessed these behaviors of a dictatorial Totalitarianism in President Obama, the majority of Congress, Department Heads he appointed, who are in concert with his agendas, the many illegal 'czars' who report only to him, Federal Judges, the Justice Department, liberal media and State officials.

We have witnessed them overstepping their limited authorities and powers, dictate strategies to the private sectors of our infrastructures.

Obama has dictated to the courts and dictates to the Justice Department, along with other Departments. Governmental Departments have a duty to refuse unlawful orders and encroachments by the three branches and other departments, though they allowed it--having separate powers and functions--they did not refuse the illegal encroachment on their respective branches and Departments, but instead, abused their positions and became one with the Executive and majority of Legislature in tyranny, absolute despotism and Totalitarianism, as conspired. The Federal Government has no legal authority to dictate to, or control, the people. However, the people, individually or collectively, has the ultimate authority and power to control and regulate the Government.

President Obama and Attorney General Holder have denigrated publicly the State of Arizona for enforcing Federal Illegal Immigration Laws. Arizona is the only State at present to adhere to Federal law concerning illegal entry across our borders and, has been unjustly criticized by Obama and Holder, who admitted they had not even read Arizona's law, which was enacted because the Federal Government has neglected to protect the people in the border States and, ultimately, throughout the nation. These acts by the Federal Government are unconscionable, illegal and a breach of safety and security for all of America.

The Federal Government has breached the United States Constitution, Article IV section 4 *"The United States shall guarantee to every State in this Union a Republican Form of Government, and shall protect each of them against Invasion; and on Application of the Legislature, or of the Executive (when the Legislature cannot be convened) against domestic Violence."*

Illegal immigration is a foreign invasion on the States, which the Federal Government is required by law, to protect. Also, many illegal immigrants have committed domestic violence against legal citizens. Those States have a duty to protect their citizens and their State's Rights by refusing to allow illegal immigration.

Obama and Holder have shown contempt and disdain for Federal and State laws and encourage those laws to be broken, thereby inciting crime.

The Federal Government has no authority to refuse to enforce its own laws to protect this country, then later use those same laws as a crutch to cry Federal Authority over States. The Federal Government's authority over States is limited and must be absent its own violation of the Constitution. The Federal Government did violate the security and safety protections of the United States by refusing to prevent foreign encroachments into the border States and, ultimately, throughout our nation. Instead, the Federal Government encouraged and incited criminal behavior of illegal entry into our Nation. Many States have the same laws in place making illegal immigration a crime, including California, yet, California and other States have enjoined to incite illegal immigration which are violations of Federal law. President Obama and A.G. Holder also violated the Separation of Powers by encroaching on sovereign States who apply the 10th Amendment of the Constitution. Therefore, those against Federal and State illegal immigration laws show contempt and disdain for the protective laws of this country and its legal citizens and are unfit for public office.

We the people of these United States overwhelmingly support and salute Arizona Governor Jan Brewer for protecting her State and the people therein. From now on, the U.S. Government shall enforce its laws and protect this nation against foreign encroachments and invasions as our Constitution has ordered, or else the people shall enforce them and revoke the authorities of those who don't.

Certain Democrats in 2004 refused to acknowledge that Fannie Mae and Freddie Mac, had been illegally altering their accounting books, and did refuse to investigate and regulate the housing markets, though certain republicans, including President Bush, warned they were needed. Four years later when Fannie and Freddie collapsed, bringing down the other markets, Nancy Pelosi, then-majority House speaker, blamed the republicans, even calling for investigations of the Republicans, even though video shows that it was those democrats who refused to investigate, regulate and correct the problem.

Our President exhibits traits of a dictator instead of governor of this country.

- Our Legislators make illegal laws while breaking legal ones.
- Our Justice Department has done nothing to bring Justice to the people while breaking laws.
- Our Judges legislate from the bench when they are only supposed to interpret established laws and reject laws that are unconstitutional.
- Our Homeland Security has renamed terrorists 'man-made disasters' while referring to the American People, who criticize the illegal form of Government, 'terrorists.'
- Our Federal court Judges have committed malfeasance and dereliction of duty by dismissing a high security matter when the eligibility case of Barack Obama to the Presidency, was presented.

We, the people, have no trust in our Governments. Our rights, liberties and sense of security are violated repeatedly. We have been robbed, abused, made divided.

- They taunt and mock us, calling us derogatory names.
- They have built a hierarchy of ruling and controlling the people, by controlling our resources and assets.
- They have hijacked our Government and our country.
- They, being corrupt, have corrupted the very foundation of the Government and all systems within.
- They are lawless and have contempt and disdain for Constitutional laws in their frenzied lust of greed, power and control.

Each State has a duty by uniting together for the common safety and welfare for themselves, their people, the Constitution and the country as a whole. They have a duty, per Constitutional laws, to reject all unlawful orders and laws, regardless of personal opinions and politic.

The people, within their States, have every right, liberty and duty to correct improprieties that endanger their lives, liberties, societies and happiness.

The people have a right and duty to correct the role of all schools.

The people must protect the children, for they are the future of this country.

The States' Department of Education, from this day forward, must revert back to their original functions and purpose of teaching only academics, including the founding of this country, and programs that promote positive and healthy issues that are age-appropriate.

They must drop all other programs that promote social indoctrinations, radicalism, propaganda and controversial subjects that are not proven.

Teachers must be held accountable for what they teach the children in their charge. It is the people, not school boards, who have the right to raise their own children as they deem fit without interference by indoctrination into liberalism. If the people do not believe in evolution being taught to their children, the people have a right to defund evolution studies. Science is the study of things already in existence and cannot determine how or when everything came into existence before existence itself. It reeks of the same falsehood deception of global warming. It is unconstitutional and child abuse for children to be indoctrinated by radical junk within the school systems and given false information. There is no room or place for junk education within the innocent minds of our youth, for it is destructive to the childrens' welfare and detains natural development.

We also have a duty to safeguard ourselves, while at the same time, support our States when they govern rightly and justly. It reasons that, while the States are meant to protect the people, in turn, the people must protect the States which they cling to. To all States in

the Union: protect yourselves and your people from foreign and domestic encroachments. If you have not done so, publicly declare your sovereignty now for the future. You have unlimited and separate powers from the central Government, therefore, you must exercise those rights. Otherwise, your people will rise up against you in rebuke, and if you are one of those States which have abused its people's rights and followed after tyranny with the Federal government, your people bear the right and duty to dismiss each official in his/her corruption and bring corruption charges and impeachment, accordingly. If you cannot protect yourselves and your people against domestic encroachments, how will you survive military invasions? But all States must bond together like a strong dam against the overreaching ambitions of the Federal Government and its destructive actions toward liberties and freedoms.

Likewise, the Federal Government's duty is to protect the people against State encroachments also, for therein lies the double security the people require. The people, then, bear the duty to protect all Governments from each other. This is the nature of checks and balances of powers which encourage peace and order throughout the nation. Thomas Jefferson made the following observations:

- "When the Government fears the people, there is liberty. When the people fear the Government, there is tyranny."
- "The two enemies of the people are criminals and government, so let us tie the second down with the chains of the Constitution so the second will not become the legalized version of the first."
- " To compel a man to furnish funds for the propagation of ideas he disbelieves and abhors is sinful and tyrannical."
- "A government big enough to give you everything you want, is strong enough to take away everything you have."

The people have been left without voices, without means of addressing and redress of the illegal actions within our Federal, and some State, Governments, for our access has been blocked by those whose crimes we seek to address. Our Country and its people are abused in the nature of evil. Our Government buildings and resources are used to conspire in organized crime.

We have only one last course of action to protect ourselves and this country, and that is to assert our authorities and take our rightful and legal control. Not as an angry mob, storming the Government buildings, for we have no right to jeopardize peace, order and safety. Instead, we call upon the military, with use of our States' National Guard units and States' citizen militias, well trained and commissioned into aiding the people execute these legal orders, and, if necessary, to escort those in violations from the people's Government buildings.

As our Constitution has protected this country and its people for over 200 years, we, the people, are duty bound to protect that Constitution. From the words of Abraham Lincoln, "This country with its institutions, belongs to the people who inhabit it. Whenever they

shall grow weary of the existing government, they can exercise their constitutional right of amending it, or exercise their revolutionary right to overthrow it."

In ruling on the 2nd Amendment, four U.S. Supreme Court Justices voted against the people's inalienable right to keep and bear arms, which is for the protection against encroachments on life, liberty and property, and by so voting against this fundamental Constitutional Amendment, and for voting to give aid and comfort to enemies (known terrorists) of the United States, violated the Constitutional laws and the people. Therefore, those United States Supreme Court Justices, John Paul Stevens, Ruth Bader Ginsburg, Stephen G. Breyer and Sonia Sotomayor, having no regard to the Constitutional laws and the rights of the people and having shown contempt of the law, shall be impeached.

Barack Obama shall be investigated thoroughly for having no proper credentials of birthplace required for the Presidency of the United States; for the deliberate purpose of spending public funds by the \$Trillions on illegal and worthless projects which are destructive to our liberties and economy; for using those he appointed to the many departments in spreading propaganda that promoted communism and anti-capitalist rhetoric; for repeatedly and illegally overstepping limited powers and authorities, encroaching on the private sectors of commerce, financial institutions, States' Rights and the people; for conspiring in secret where the people have no knowledge of what is transpiring, where illegal deals and bills are forced into laws that are contrary to the people's safety, rights, liberties, happiness and the Constitution itself.

Non-partisan double Investigations shall commence, without interruption or dismissal, against Barack Obama II for treason, usurpation, extortion, fraud, acting without legal authority, asserting personal will against Constitutional laws, inciting criminal behavior in breaching Federal Laws and endangering the safety and welfare of these United States, the people and our republic; for violating the oath of the Presidency of America in upholding Constitutional laws and protecting this country and its people.

The majority of the 111th Congress shall be investigated for treason, usurpation, inciting criminal behavior in breaching Federal laws, legislating illegal laws, violating Checks and Balances Laws, fraud, briberies, extortions, violating the oaths of office to uphold Constitutional laws, acting without legal authority, asserting personal will against Constitutional laws and endangering the safety and welfare of these United States, the people and our republic.

Be it known that, the United States of America has three separate powers which are designed to keep each other in check to balance the powers of each. These are, the Federal, the respective States and, the People. The central Government is Federal and National. Each State is a local Government to the people in it's residency. But united, they are National. The people are local within their respective States, but united, we are a National people. The people have the ultimate authority and power to settle conflicts between States and Federal disputes, settle conflicts of encroachments of the several

departments and to settle encroachments on the people by tyranny and absolute despotism.

From James Madison, in Federalist Paper # 49:

*"The people are the only legitimate fountain of power, and it is from them that the Constitutional charter, under which the several branches of government hold their power, is derived, it seems strictly consonant to the republican theory, to recur to the same original authority, not only whenever it may be necessary to enlarge, diminish, or new-model the powers of the government, but also whenever any one of the departments may commit encroachments on the chartered authorities of the others. The several departments being perfectly coordinate by the terms of their common commission, none of them, it is evident, can pretend to an exclusive or superior right of settling boundaries between their respective powers; and how are the encroachments of the stronger to be prevented, or the wrongs of the weaker to be redressed, without an appeal to the people themselves, who, as the grantors of the commission, can alone declare its true meaning and enforce its observance? There is certainly great force in the reasoning and it must be allowed to prove that a Constitutional road to the decision of the people ought to be marked out and kept open for certain great and extraordinary occasions."*

The following will please take notice: President Barack Obama; Vice President Joe Biden; Secretary of State Hillary Clinton; U.S. Attorney General Eric Holder; ALL members of the Obama Administration and ALL those appointed by Barack Obama to the several Departments of our Governments; All Federal court Judges who dismissed the eligibility case against Barack Obama, thus, potentially endangering the welfare of this country and leaving open the possibility of infiltration now, and setting precedence for future infiltrations, for following after tyranny in his protection, for malfeasance and dereliction of legal duty to the Constitution and the people; All members of Congress who voted against investigating, regulating and correcting the illegal activities within the housing markets, turning a knowing blind eye from those practices to protect them, thus, partly causing the financial crash that ensued; All members of the 111th Congress who voted in favor of the illegal takeover of healthcare, thus violating the Constitution; Who offered and/or accepted, bribes for votes, and any other persons discovered during the course of the mass investigations now pending and hereafter executed, including those who were not re-elected, you are all advised, that in accordance to Constitutional duty, since you have been negligent and criminal in yours, ours is to correct an injustice done by you, including endangering the safety and welfare of these United States of America, the people, the Constitution, our infrastructure and our republic.

- You have brought mass injuries to the people of these United States whose trust you have betrayed.
- You have repeatedly violated the oaths you swore by in your duties and grossly abused your powers.
- You are traitors to this country and have destroyed much in your capacity.
- You have robbed and defrauded the American people whom you were elected to protect.

- You have reduced the people's liberties, rights and happiness through absolute despotism, tyranny and illegally changing our form of Government. You have repeatedly committed abridgements of the Constitution.
- You have tainted Governments and have perverted justice.
- You have subverted our Constitution.
- You have brought shame and disgrace to this Nation by corruption and greed.

Article II, section 4 of the Constitution reads: "The President, Vice President and all civil officers of the United States, shall be removed from office on impeachment for, and conviction of, treason, bribery, or other high crimes and misdemeanors."

If Obama fails to present a true long form birth certificate to satisfy his eligibility to the Presidency, he shall not be impeached, for impeachment is for those eligible to serve, but has committed a crime. Instead, he will be charged with usurpation, conspiracy to sabotage and cause harm to these United States of America and to the people and all other crimes he has committed while in office.

Therefore: It is decreed, with public outcry, and by virtue of the executive authority and duty vested in us, the American people, by our Constitution and its laws, that we declare your authorities, powers, positions and titles revoked immediately.

It is declared that the illegal form of Totalitarian Government, which you have illegally created and maintained, is hereby, abolished. You are hereby proclaimed to be without power and authority. You are banned from Government employment and from any association of any Government entity where you may influence and thus, pervert. You are subject to investigations, arrests and, accordingly, prosecution, for your crimes against this Nation, it's laws, the people, our government and our republic. You have slipped through the slippery fingers of the Justice Department and the courts, but the hands of the people are stronger.

You have five business days after this order to collect your personal property and vacate the people's Government buildings, no later than 5 PM on the 5th day. If you choose to ignore this order by the people, you will be escorted out by our States' National Guard Units, trained Citizens' Militia, and our Federal military, all having Constitutional duty to aid and protect the people but, will also be charged with the duty to ensure your safety and well-being during escort. In any event, the people pledge not to storm our government buildings, for this would create a safety and security hazard which shall be avoided. But as a last resort, in the absence of aid, if we, the people, must peacefully and in an organized manner, enter our Government offices and escort those in violations out, then those people bear duty to ensure the safety and well-being of those during escort.

We are a Nation of laws and those laws are for the people to adhere to as much as for those in our public offices. Therefore, We, the People, of these United States, hereby declare our sovereignty and ultimate authority and power over our government in its repossession in order to restore it to its original and limited purpose of which our Constitution ordered.

We, the people, shall relinquish our control and possession after order is restored and our government can govern the people according to Constitutional laws as a limited entity within its own scope and without further encroachments.

The people pledge not to physically overtake our Federal Government, IF we have aid from the military in escorting the violators from all Government buildings, but merely to ensure compliance of Constitutional laws in its rebuilding, healing and future. There will be more positions within the several departments vacated than replaced.

May the people be warned, that we have no right to institute any government on personal whims, nor that are contrary to our Constitutional laws, lest we become that which we have purged in our own quest for power. That is why we elect our Representatives, taking our voices to the nation. We pledge to be fair and prudent, to recover from such destructive and illegal activities within our Government.

From this day forward, the people, States' and Federal governments must work together as our founders prescribed, for uniting the three forces will strengthen this country and allow the Constitutional laws to work uninhibited and justly, while ensuring that corruption and crimes never enter our Governments again and lay roots.

The people demand that the ethics committee in our government do it's duty more properly and aggressively to investigate crimes within our Government as well as our Justice Department and Court systems. We reserve the right to establish THE PEOPLE'S RESOLUTION OF LAWS AND ISSUES, detailing current laws that are constitutionally questionable--giving the people ample access to show cause--and issues that the people, Congress and Supreme Court should discuss, ponder and resolve, in accordance with the Constitution. Issues must be taken into account by all three powers; Federal, State and the people, and discussed in detail at a later date.

All public servants under normal command of those whose authorities and powers have been revoked, are hereby absolved from obeying any orders from them. Be aware, that any military or law enforcement personnel who obeys any order from anyone having neither powers nor authority to give them, their powers, positions and authorities having been revoked, shall be charged with obeying unlawful orders, Treason and Obstruction of Justice, for the people are within rightful and legal repossession of our Government to restore order therein, to guard our mutual safety, security, liberties, infrastructures, finances, livelihoods and the Constitution against further encroachments and, in restoring our government back to its original intent.

To protect our common rights and liberties, our founders left the people legal defense against Federal and State military encroachments against us by the Constitutional right to keep and bear arms AND the right and duty to form and utilize Citizens' Trained Militia, which our founders calculated to outweigh, both in numbers and legalities, all encroaching Federal and State Military personnel.

However, both Federal and State military personnel also have the right and Constitutional duty to aid, protect and join the people against Federal and State encroachments.

Any military personnel who've been, or are facing, court-martial for disobeying orders from then-President Obama, was within rightful and legal position to question his eligibility, and, therefore must be relieved of all charges brought, and redeemed. No record of any charges related to disobeying orders by Obama shall be maintained, but destroyed immediately.

All States, bearing duty and observance under Federal Constitutional laws, are absolved from obeying illegal Federal laws and encroachments created by those within the Federal Government whose authorities, powers, positions and titles are revoked, and any other illegal mandate created by them and those before them. Your loyalty is demanded by the people you serve, not the Federal Government in its tyranny.

States retain their legal and rightful sovereignty and separate powers so that they may govern justly the people within their jurisdiction. States bear a right and duty to throw off such mandates that have crept in throughout the decades that are not Constitutional and to free themselves and the people of unnecessary Federal encroachments, now and forever.

The States, and/or, the people, have the right to abolish any and all laws that are unconstitutional and make amendments accordingly. There shall be no material, flags or any more promotion of communism, fascism, socialism, Totalitarianism, Naziism, Marxism or confederacy or any pictures of dictators and terrorists in the people's public offices, from the highest to the lowest, as this country and its Governments are solely republic and our society, capitalist. No person shall hold any public office who promotes any position contrary to our Republic and Capitalist society. All public offices belong to the people and this order shall be enforced.

Those who were terminated under then-President Obama, who did their duties justly and fairly, without corrupt influence, but was terminated wrongfully at whim, may reapply for their positions, as they have been unjustly, for corrupt political reasons, let go. Never shall the people's access of redress be hindered again. Never shall courts dismiss eligibility cases of Presidents, or potential Presidents, again.

The Federal Government shall revert back to its intent on governing only by that which is constitutionally within the limited scope of its authorities.

It shall forever be restrained from abuse of powers so that it may govern the people according to Constitutional laws rather than ideologies.

It shall downsize and shed programs and agencies that are not necessary in this day of recession and shall reform financially.

Both Federal and State governments shall function within their means and wean from dependence of taxpayers' income, for the abolishment of the illegal Income Tax and Federal Reserve Acts are forthcoming, with a window of a tentative 3-4 year phase-out transition to be underway.

Be it known that the following secret society groups, the Bilderberg group, Trilateral Commission, and all other secret society groups, shall have no more sensitive information on our infrastructure, assets and finances, from our Government, for they obtain this information from all countries, as they advocate a one-world-governance on their websites, which is against the principles of the United States of America and our best interest.

An investigation on George Soros, who boasts his activities in manipulating countries to cause chaos at his pleasure and gain, and all his connections within the United States of America. From hereafter, we, the People, must never let our sovereignty be jeopardized again, but must stay diligent in safeguarding what is precious and dear to us. Should the people in the future be faced with such an atrocity, not for light or temporary causes, nor for mere disagreements, but for Government encroachments and in self-defense, may they refer to this Declaration and THE PEOPLE'S RESOLUTION OF LAWS AND ISSUES as their warrant and, likewise, assert their authority to save the country and themselves. We, the people, proclaim, that, this country was built as a Republic, meaning, through LAWS, and shall never change.

Our inherent rights and need for order are based on our founders' recognition of natural law from biblical principles and values, though tolerant of all faiths and beliefs, that shall never change. Our Commerce was built on Capitalism and that form shall never change, so say the people. This day may be observed Nationally and annually, by those among the people who agree with it, so that future generations may learn, and observe, the importance of safeguarding their freedoms and liberties.

Let the world observe, and let our future generations learn, that as long as there is a will in the people to never allow their rights and freedoms to falter, there is a way for Justice and happiness for all.

As long as we stand united, these States shall never fall. We, the sovereign people, having decreed our decision and, in agreement, do pledge our honor, support and faith in the execution of this document, legal and binding, as prescribed by our Constitution. This Declaration is dedicated to our founding fathers, the signers of the Declaration of Independence and to all those who served to protect our liberties and freedoms; past, present and future. May God have mercy on us all and bless the United States of America and her allies.

THE PEOPLE HAVE THUS DECLARED AND, BY VIRTUE OF CONSTITUTIONAL LAWS AND DUTIES, HEREBY PRESENT THIS WRITTEN ORDER OF REVOCATION AND ABOLISHMENT, TO BE EXECUTED, EFFECTIVE IMMEDIATELY. IT IS SO ORDERED.
